

产品简介

3WG-4多功能田园管理机，引进国外先进技术，结合实际作业需求而改进生产，是一款先进实用的精品管理机，主要用于葱、姜、土豆等多种经济作物的种植管理，特别是对甘蔗、烟草的培土作业有特好效果。

旋耕单机部分特别适应于山区、丘陵、大棚、坡地等小块的深耕、旋耕、开沟扶垄作业，带有转向离合功能，可配装数十种专用机具，满足不同需求。

Multifunctional power tiller 3WG-4 is with advanced technology and many improvement according to customer's requirement. It is an advanced, practical multifunctional power tiller elite. It is mainly for planting management of scallion, ginger, potato, especially good performance for sugar cane, baccy.

Rotary power tiller 3WG-4 is specially good at deep tilling, rotary tilling, trenching, ridge forming, earth up in hilly area, garden, small field. It is with turning clutch function, and it can be mounted with many kinds of implements for different use.
