

产品简介

3WG-4A经济型田园管理机为满足低收益农作物机械化作业的需求，在多功能田园管理机的基础上，进行了优化改进，保留了原机器的强度、刚性、主要性能和内在质量，使之更轻巧、灵便、专用，突出了经济实用的特点。

旋耕单机，结构强度高，刚性好，性能可靠、稳定，作业适应性强，故障率特低，完全考虑到了低收益农作物的实际需求，价位低，耐用，调整方便，操作方便，该机适用于旱田、水田、山地、坡洼地等，适用性强，适用面广。

Multifunctional economical type power tiller 3WG-4A is mainly for low profit crops. On basis multifunctional power tiller 3WG-4, it have been optimized and improved. Keeping its strong structure, main performance and good quality, it is improved to be smaller, more flexible, specialized, and with light weight. Above all, it is much more economical.

The individual rotary tiller is with strong structure, reliable performance, low failure rate. It is with fully consideration for low profit crops. And it is with low price, durable quality, easy adjustment, convenient operation. It fit for working in dry land, paddy field, hilly area, ...etc.

机器性能、指标参数

外形尺寸 Dimension	整机质量 Machine Weight	离合方式 Clutch Mode	行走箱档位 Travel Transmission	培土箱档位 Earth up Transmission	发 动 机 Engine	罗宾ROBIN
1615*680*1023 mm	128千克 (kg)	皮带涨紧离合 Belt tensioner clutch	前进二档,倒退二档 Forward 2 shift, reverse 2 shift	前进四档 Forward 4 shift		三菱MITSUBISHI
功能 Function						开普 KIPOR 风冷柴油发动机 air cooling diesel engine
扶手左右360度上下30度可调可配用几十种农机具：开沟、培土、起垄、打埂、覆膜、喷药、浇灌等 Hand bar vertical move range angle 30° , and swing in 360° . It can be mounted with many kinds of implements: trenching, ridge forming, earthing up, filming, spraying, irrigating...etc.						本田HONDA
						其他 Other 单缸高速发动机 single cylinder high speed engine
