

Sugarcane Leaf Scraper 6BZ-5 old type

Application scope: Plain, coteau, soft sugarcane field.

Function: Remove sugarcane leaf.

Feature:

1. Backing structure, organized GN91 seat walking tractor, 2 group of removing engines, frame and transmission, with strong power, motor drive while steps.
2. Easy to operate with high working efficiency.
3. It's in small size and light weight, which is easy to be transported.

Engine: 175Diesel engine

Power: 4.41KW(5-6HP)

Weight: 125Kg

Row spacing: 700 ~ 1200mm

Ridge high: ≤ 135 mm

Slope high: $\leq 20\%$

Miscellaneous rate: $\leq 3\%$

Damage rate: $\leq 3\%$

Production rate: 1 ton/h

Oil consumption: 0.8 ~ 0.9kg/ton
