

SPRINKLER TRUCK

OFF-ROAD

To be the leading supplier of engineering transportation solution and equipment

- Fire-fighting function: Equipped with 25m range water gun, it can be used as a temporary fire truck.
- Greening function: The sprinkler system has a mixing function, which can mix pesticides and spray trees and green belts.
- Suction pump water function: It can suck water and store it to the water tank, and transport water for production operation.

Off-road sprinkler truck					
Overall parameters	Model	TLS753	Engine	Model	WP12G430E310
	Brand	Tonly		Manufacturer / Country	Weichai/China
	Drive mode	6×4		Power (hp/kw)	430/316
	GVW (t)	72	Transmission	Model	7DS180
	Rated payload (t)	50		Manufacturer / Country	Fast/China
	Kerb weight (t)	22		Input torque (N·m)	1800
	Dimensions (mm)	11295×3340×3965	Axle	Manufacturer / Country	Hande/China
	Wheelbase (mm)	5075+1550		Load/T	20+35+35
	Wheel track (mm)	2680/2500	Tires / Rims	Tire model	14.00-25
	Minimum ground clearance (mm)	305		Rim size	10.0/2.0-25
	Minimum turning radius (m)	12.6	Water Pump	Model	80QZB60/90S
	Braking distance (m)	12		Manufacturer / Country	Hangzhou Weilong/China
	Maximum climbing degree (%)	≥32	Tank	Inner cavity size (mm)	8100×3250×2200
	Maximum speed (km/h)	40		Plate thickness	Tank body 6mm; wave stopper 6mm (6 pieces)
/	/	/		Material	Q355B (optional stainless steel material)
